Testimony #1

I am a mother of 4 children, working at a private company. I have had sinus and high level of cholesterol for the past 10 years. I have tried many medications but my condition did not improve until a friend of mine introduced this miracle Super Mahogany Capsule. At first, I tried to take it raw but failed to even swallow them due to the bitterness taste. I then contacted TLM to try their Super Mahogany Capsule. In the first week of my experience taking these capsules, I have had very heavy sneezing, almost everyday with lots of liquid purged through my nose. After about 3 weeks of continuous taking the capsule, my sneezing problem disappeared and the greatest thing is, my breathing improved tremendously. My husband told me that I no longer snore during my sleep. After about a month consumed, I went for medical checkup and my family doctor was surprise when he detected my cholesterol level was back to normal. I am very thankful to my friend for introducing me this miracle solution that not only solve my health problems but also make me energetic all the time. Now, I still take this wonderful product as my only food supplement and natural "panadol". I want to thank TLM for giving me faith in my condition.

Testimony #2

I have come to know the mahogany fruit two years ago when my mother forced me to take it after my doctor confirmed that my blood pressure was higher than normal. I took my mother's advice but I also took the medicine prescribed by my doctor, just in case. After about 6 weeks, I went for medical check up and surprisingly the doctor said that my pressure level has gone back to normal and I was asked to discontinue the doctor's medication. Now, no more strain on my neck or headaches as I continuously consume the Super Mahogany Capsule for my health and of course to reduce my blood pressure during "pressure time" in future. Thanks to my mom, sometimes we must listen to the elderly, don't be too proud of ourselves.

Testimony #5

I heard about these mahogany fruit from my in-laws as she's been cured from migraine problem. Frankly speaking I am not really confident initially with the goodness of these bitter fruit until I actually try it myself. The quick response of these fruit really surprised me because on my 2nd day of trying these capsules I end up with a fever and cured on the 4th day. Despite of my worries I keep taking the capsule as I always hold on to the principle where all medicine is bitter. The bitter the medicine the better it is. Now, I am proud to admit that I can easily take these mahogany fruit frequently as part of my daily supplement despite of the bitterness. I can easily recommend to all my family members as now days it actually comes in a form of a capsule (super mahogany).
